

Senatla Ops

Environment Boundaries

Local, preview and production data and credential boundaries.

VERSION	1.0
DATE	23 June 2026
STATUS	Controlled release baseline
CLASSIFICATION	Confidential - internal use

Prepared by Sankofa Digital Studio for Senatla Trading

Table of contents

Placeholder for table of contents	0
-----------------------------------	---

Environment	Data	Authentication	Purpose
Local	Deterministic synthetic records	Local demo or local Supabase	Development and repeatable validation
Preview	Synthetic or approved test records	Supabase preview project	Pull-request browser and UAT evidence
Production	Senatla Trading operational records	Production Supabase	Authorized internal operations

SUPABASE_SERVICE_ROLE_KEY is server-only and must never appear in Angular runtime configuration. SENATLA_AUTH_REVIEW_BYPASS is local review tooling and must be false in preview and production. Runtime configuration and .env files are ignored by Git; .env.example documents names only.

Production promotion requires a reviewed migration, clean reset evidence, backup reference, rollback instructions and signed release checklist.
